

Same Day Surgery Center Community Health Implementation Plan

Fiscal Years 2023 - 2025

Released November 15, 2022

Executive Letter

Same Day Surgery Center is committed to delivering the optimal surgical experience for our patient, physician, & employee customers, and supporting our community through the health care delivered and the taxes paid. In carrying out that purpose, we commit to improving the health of the community in collaboration with Monument Health through the strategies outlined in this Community Health Implementation Plan (CHIP).

Same Day Surgery Center looks forward to carrying out the activities of our CHIP during the next three years (FY 2023-2025). Carrying out this plan will require us to move beyond our own walls and increase collaborations with local stakeholders and community organizations. We are excited for this opportunity and look forward to how this work will help our patients and community live well.

About Same Day Surgery Center

Same Day Surgery Center (SDSC), LLC, located in Rapid City, South Dakota, is a joint venture of Monument Health Rapid City Hospital, a tax-exempt community hospital, and physicians comprising Rapid City Ambulatory Surgery, LLC. Established in July 2001 as a for-profit surgical specialty hospital, we are committed to delivering the optimal surgical experience for our patient, physician, & employee customers, and supporting our community through the health care delivered and the taxes paid. Despite our name, patients can spend multiple nights with us as long as medical necessity exists.

We serve about 4,000 patients per year through inpatient and outpatient surgery, of which about 33% are pediatric receiving ENT procedures and dental care. The majority of patients spending the night with us are females having gynecologic surgery or mastectomies. We also currently service urologic, endoscopic, plastic, and reconstructive, bariatric, oral and maxillofacial, ophthalmologic, and general surgery specialties. We have 6 licensed beds.

The mission of Same Day Surgery Center is to *provide excellent surgical care in a safe, efficient environment with an emphasis on customer satisfaction*. Same Day Surgery Center is dedicated to addressing its outreach objectives of serving the entire community, not only those who come through its doors. Building on a long tradition of service, the hospital utilizes its strengths alongside those of other well-established community partners. This strategy allows the hospital to better understand and reach the most vulnerable sectors of the community, while meeting pressing health care needs. The goal is to improve the community's health status by empowering citizens to make healthy life choices.

Community Health Improvement Overview

In November 2021, Monument Health and Same Day Surgery Center contracted with Professional Research Consultants (PRC) to conduct Community Health Needs Assessments (CHNA) for each of its hospital communities including the Same Day Surgery Center service area. The CHNA is a systematic, data-driven approach to determining the health status, behaviors, and needs of residents. The assessment provides information so that communities may identify issues of greatest concern and prioritize resources to those areas, thereby making the greatest possible impact on community health status.

Community Health Needs Assessment Methodology

The CHNA report incorporates data from both quantitative and qualitative sources. Quantitative data input includes primary research (the PRC Community Health Survey) and secondary research (vital statistics and other existing health-related data); these quantitative components allow for trending and comparison to benchmark data at the state and national levels. Qualitative data input includes primary research gathered through an Online Key Informant Survey.

While this assessment is quite comprehensive, it cannot measure all possible aspects of health in the community, nor can it adequately represent all possible populations of interest. It must be recognized that these information gaps may in some ways limit the ability to assess all the community's health needs.

Identified Areas of Opportunity

The following "Areas of Opportunity" represent the significant health needs of the community, based on the information gathered through this Community Health Needs Assessment and the guidelines set forth in

Healthy People 2030. From this data, opportunities for health improvement exist in the area with regard to the following health issues. (See also the summary tables presented in the following section).

Access to Healthcare Services	<ul style="list-style-type: none"> ● Routine Medical Care (Children) ● Eye Exams
Cancer	<ul style="list-style-type: none"> ● Cancer is the leading cause of death
Diabetes	<ul style="list-style-type: none"> ● Ranked as a top concern in the Online Key Informant Survey
Heart Disease & Stroke	<ul style="list-style-type: none"> ● Cardiovascular disease is a leading cause of death. ● Blood Pressure Screening ● Blood Cholesterol Screening
Injury & Violence	<ul style="list-style-type: none"> ● Motor Vehicle Crash Deaths ● Firearm-Related Deaths ● Bicycle Helmet Use (Children 5-17)
Mental Health	<ul style="list-style-type: none"> ● “Fair/Poor” Mental Health ● Symptoms of Chronic Depression ● Suicide Deaths ● Ranked as a top concern in the Online Key Informant Survey
Nutrition, Physical Activity & Weight	<ul style="list-style-type: none"> ● Fruit/Vegetable Consumption ● Low Food Access ● Relied on Food Bank or Free Meals in the Past Year ● Overweight & Obesity (Adults) ● Medical Advice on Weight ● Ranked as a top concern in the Online Key Informant Survey
Potentially Disabling Conditions	<ul style="list-style-type: none"> ● Joint replacement is the leading diagnosis for hospital admissions ● Caregiving
Sexually Transmitted Diseases	<ul style="list-style-type: none"> ● Gonorrhea Incidence ● Chlamydia Incidence
Substance Abuse	<ul style="list-style-type: none"> ● Cirrhosis/Liver Disease Deaths ● Illicit Drug Use ● Ranked as a top concern in the Online Key Informant Survey
Tobacco Use	<ul style="list-style-type: none"> ● Cigarette Smoking Prevalence

Areas of Opportunity Not Chosen for Action

In acknowledging the wide range of priority health issues revealed through the CHNA process, Same Day Surgery Center prioritized to focus on those which it deemed most pressing, most under-addressed, and within the ability to influence. The areas identified during the CHNA process that will not be directly addressed through this implementation plan are listed below. These identified needs are being addressed by other organizations in the community, are outside our core area of expertise, or require resources that are not available at this time.

Health Priorities Not Chosen for Action	Reason
Access to Health Services	<i>This issue will not be addressed as a primary need but will be impacted through the Monument Health Cancer & Diabetes priorities.</i>
Diabetes	<i>This issue will not be addressed as a primary need but will be impacted through the Monument Health CHIP priorities.</i>
Heart disease and stroke	<i>This issue will not be addressed as a primary need but will be impacted through the Cancer and Heart Disease & Stroke priorities Monument Health's CHIP.</i>
Injury & violence	<i>Monument Health has partnered with Kohl's Cares, Safe & Sound South Dakota, Farm Bureau of South Dakota, and Community Organized Resources in Educating Youth to address this area of opportunity. With these partnerships, SDSC determined that progress is being made in this area and that other areas of opportunity required more immediate and focused attention.</i>
Mental health	<i>This issue will not be addressed as a primary need but will be impacted through the mental health priority of Monument Health's CHIP.</i>
Potentially Disabling Conditions	<i>This issue will not be addressed as a primary need but will be impacted through the Cancer and Diabetes priorities.</i>
Sexually Transmitted Diseases	<i>Data from the CHNA revealed that incidence rates of Chlamydia and Gonorrhea were of greatest concern in this area in the community. This information will be shared with primary care; however, this is not prioritized for action.</i>
Substance Abuse	<i>This issue will not be addressed as a primary need but will be impacted through the mental health priority of Monument Health's CHIP.</i>
Tobacco Use	<i>This issue will not be addressed as a primary need but will be impacted through the Cancer and Heart Disease & Stroke priorities Monument Health's CHIP.</i>

Health Priorities and Strategies

July 1, 2022 – June 30, 2025

In February 2022, the findings of the Community Health Needs Assessment (CHNA) were shared with Monument Health leadership, with Same Day Surgery leadership getting the information the following month. These groups reviewed the areas of opportunity identified in the CHNA and provided input on potential priority areas of focus.

Based on this feedback and the organization's resources and expertise, Same Day Surgery Center's Board of Directors determined the following two priority areas as the focus of the Community Health Improvement Plan:

- Cancer
- Nutrition, Physical Activity and Weight

Same Day Surgery Center and Monument Health commit to providing the resources necessary to carry out the goals, objectives, and strategies listed in this Community Health Implementation Plan. These resources include leadership and caregiver time and knowledge, financial support, and planning and reporting assistance.

Priority 1: Cancer

Goal: Explore, develop, and support opportunities that will positively impact the health of our communities related to cancer prevention, treatment, and survivorship.

OBJECTIVE: INCREASE AWARENESS OF AVAILABLE CANCER RESOURCES IN OUR COMMUNITY

Anticipated Impact: Gain better community understanding of Cancer Care services available.

STRATEGIES:

- Provide Screenings and Education at Community Health Fairs/Events
- Improve patient education materials, offerings, and practices to focus on the importance of cancer prevention and early detection to reduce cancer incidence in our region
- Participate in Cancer Fundraisers and Awareness Walk(s)

Priority 2: Nutrition, Physical Activity and Weight

Goal: Explore, develop, and support opportunities that will positively impact the health of our communities related to nutrition and exercise.

OBJECTIVE: INCREASE COMMUNITY AWARENESS OF NUTRITIONAL AND EXERCISE RESOURCES AND MANAGEMENT PROGRAMS THAT PROMOTE HEALTHY LIFESTYLE CHOICES

Anticipated Impact: Increase participation in health programs and improved Diabetic health outcomes.

STRATEGIES:

- Provide Screenings and Education at Community Health Fairs/Events
- Participate in Food Drives and Distribution for Food Insecure Populations
- Encourage Physical Activity through Community Activities

Adoption of Community Health Implementation Plan

On October 27, 2022, the Monument Health Rapid City Hospital Board of Directors met and discussed the plan for addressing the selected community health priorities identified through the Community Health Needs Assessment process. Upon review, the Board approved the adoption of this plan for Rapid City Hospital and the related resources required to achieve the goals, objectives and strategies outlined within that work to meet the health needs of the community.
